WRITING PRACTICE

Think about a time when you met someone new.

Write a paragraph about the experience. As you write, answer these four questions:

1. Where did you meet this person?
2. What were they like?
3. How did you start the conversation?
4. What similarities or differences did you have with this person?

If you haven't met anyone new recently, ask yourself what you would do in that situation. How would you introduce yourself? What questions would you ask them?
